```
gem install gem_lint
```

```
gem lint thinking-sphinx-2.0.2.gem
- no-changelog-or-history
- require-doesnt-match-gemname
- ruby-files-outside-lib-test-spec
- string-email
```

`gem lint blah-1.0.0.gem --detailed`

Inspiration

1) jslint (Javascript)

2) lintian (Debian Packages)

3) No Readme and/or changelog

NOT: code metrics

NOT: testing

FOCUS: packaging quality

runtime dependency on hoe?

readme?

changelog?

contains other gems?

utf-8 spec?

capitals in gem name?

contains a DLL,
but platform is ruby?

Fork!
